EXECUTIVE SUMMARY

Senior information security leader with deep experience guiding enterprise cloud security, governance, risk, and compliance across complex, decentralized environments including public sector, healthcare, and regulated financial services. Trusted advisor to executive leadership with a proven ability to develop security strategy, mature operational capabilities, and translate cyber risk into institutional decision-making. Brings a pragmatic, collaborative leadership style aligned with academic mission enablement, operational resilience, and long-term security maturity.

CORE COMPETENCIES

Information Security Leadership; Security Strategy and Roadmaps; Decentralized IT Environments; Cloud and SaaS Security (Azure, AWS, GCP); Governance, Risk, and Compliance; Security Operations and Incident Response Readiness; Security Engineering and Technology Governance; Cyber Risk Metrics and Executive Reporting; Vendor and MSSP Oversight; Automation and Security Process Maturity; Cross-Functional Collaboration; Team Leadership and Mentorship

PROFESSIONAL EXPERIENCE

Information Security Manager, Cloud and Enterprise GRC

Genworth Financial

July 2024 to Present

Provide enterprise security leadership for cloud and SaaS environments across Azure, AWS, and Google Cloud Platform. Serve as a senior advisor to engineering, architecture, and business leadership on cloud risk posture, regulatory alignment, and security strategy. Lead cloud security governance, policy development, risk assessments, exception management, and third-party assurance efforts to enable secure adoption aligned with organizational risk tolerance. Support advancement of enterprise Zero Trust cloud security governance and executive risk reporting.

Information Security Architect, Governance Risk and Compliance (consultancy)

Information First, LLC

December 2023 to February 2024

Provided senior security leadership for corporate IT and cloud service offerings, serving as a primary advisor on FedRAMP-aligned security and compliance requirements. Led cloud risk identification, assessment, and mitigation efforts while advising leadership on security posture and regulatory obligations. Owned continuous monitoring, vulnerability management oversight, and incident response coordination across regulated environments.

Enterprise Solutions Architect and GRC Portfolio Manager
Virginia Information Technologies Agency, Commonwealth of Virginia
November 2021 to February 2024

Served in a progressively expanded leadership role supporting statewide IT services, evolving into governance, risk, and compliance portfolio oversight for 26 Executive Branch agencies. Led SaaS risk assessments, asset and licensing audits, and FedRAMP-aligned compliance validation. Directed configuration management and audit readiness through ServiceNow CMDB while advising agency leadership within a federated, multi-supplier environment.

System Administrator, Communications and Emergency Operations
VCU Health
May 2021 to November 2021

Held operational ownership for mission-critical healthcare systems in a highly regulated environment, ensuring HIPAA-compliant administration and monitoring. Served as a member of the Emergency Operations Command and Disaster Preparedness Team with responsibility for the readiness and operability of Hospital Command Center IT systems during incident and emergency response events.

System Administrator promoted to IT Manager
Anord Mardix
May 2019 to May 2021

Reported directly to the Chief Information Officer and assumed operational leadership of United States IT operations following the Director of IT's departure. Led hybrid infrastructure operations, identity and access management, endpoint and mobile device management, executive IT services, procurement and vendor relationships. Directed ISO 27001 readiness and GDPR-aligned data protection initiatives.
